At our Modern Factory we integrate quality materials with our experience and know how to produce durable switches like these 1000 volt DC fusible and non-fusible disconnects.

**POWERSWITCH, INC** was established by Normandy Machine Co., **NMC**

to manufacture high quality manually and motor operated DC Disconnect Switches, Fiberglass Enclosures, and related 1000 VDC components for Transit Power distribution systems. For more than 60 years, **NMC** has been a trusted supplier to the Electric Power Distribution Industry serving most Transformer Manufacturers nearly all U.S. Electric Utilities and a score of large Industrial Plants. **NMC** repairs and custom- manufactures parts for power transformers and circuit breakers, including bushings, tapchangers, and switchgear.

**NMC's** long term experience as a manufacturer of AC Transformer and Switchgear Parts assures our ability to manufacture the durable DC Switches required for dependable transit power distribution systems. Materials, design and production skills, and facilities needed to manufacture components for both product lines are the same.

Wide spread acceptance of our Disconnect Switches and repeat orders from previous users assures our reputation for fast response, economical solutions, design flexibility, and consistent high quality.

**NMC-POWERSWITCH** can meet your new or replacement DC disconnects switch needs. Call Toll-free [1-800-526-6740](tel:1-800-526-6740) or e-mail [pssales@normandymachine.com](mailto:pssales@normandymachine.com)
