600 AMP 34.5 KV 2 POLE ROTARY GROUNDING SWITCH UP-GRADE REPLACEMENT FOR A SPECIAL ASSEMBLY BY A MANUFACTURER NO LONGER IN BUSINESS

Shown here are some examples of special disconnect switches made for unique applications or to replace and up-grade special assemblies no longer available from the original manufacturer. POWERSWITCH has modern production facilities and know-how to repair, duplicate, or make new replacement parts for most older style disconnect switches that are no longer commercially available. Providing fast response, economical solutions, and consistent high quality products is the only way we do business at NMC-POWERSWITCH.
